Lesson 3 – chilli challenge

Complete the subtraction equations. Draw the tens and ones to help you solve them.

Solve these equations by drawing the tens and ones.   WAGOLL

Cross out the part you know to find the answer.

$18 - 3 =$

Mild

6 - 6=

18 - 2=

21 - 1=

23 - 2=

Spicy

55 - 5 =

64 - 3=

47 - 2=

52 - 10=

Hot

77 - 7 =

86 - 5 =

=94 - 2

=99 - 9

An odd number subtract an odd number will always equal an even number.

True or false:

Write 4 equations to prove your answer.

$37 - 4 = 32$

$27 = 33 - 3$

$71 - 0 = 65$

$15 - 5 = 20$

$88 = 97 - 10$

Correct the errors in green pen.

Ben had 29 football cards in his bag. He gave 3 away to Matt, and then gave 5 to Sarah.

How many does he have now?

Show your working out.

Record all the subtraction facts for number bonds to 20:

Example:

$20 - 0 = 20$

$20 - 1 = 19$
