

Key learning: To use place value to recognise numbers up to 20

Choose a digit card. Record the number and then write how many tens and ones it has.

WAGOLL

1	2			1	ten
				2	ones

Alex makes a part-whole model.

She says:

There are 8 tens and 1 one.

Explain her mistake.

What is her number?

Tens and Ones

These children use base ten equipment to make numbers. What number could each child have made?

I have a ten stick and less than 3 one blocks.

Ben

I don't have any ten sticks.

Erica

I have a ten stick and more than 5 one blocks.

Anna

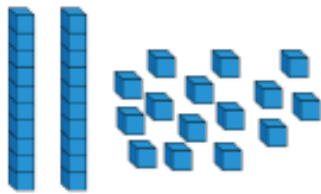

Can you make 20 using base ten equipment?

Ben could have _____

Erica could have _____

Anna could have _____

How many ways can you complete the part-whole model to show numbers up to 20, using the Base 10 equipment – you do not have to use it all.

Record by drawing the dienes to show your understanding
