Key learning: To subtract two-digit numbers when crossing tens. 26.1.2021

Success criteria:

- I know when to exchange a ten for ten ones.
- I can draw tens and ones to subtract a one digit number from a two digit number.
- I can draw tens and ones to subtract a two digit number from a two digit number.

Deepening – problem solving

Practise and consider

Write these equations into your book and solve them. You must show your working out.

13 - 5 =

31 - 5 =

22 - 6 =

63 - 4 =

47 - 9 =

24 – 7 =

Independent task

Write these equations into your book and solve them. You must show your working out.

71 - 14 =

83 – 65 =

53 – 27 =

40 - 29 =

80 – 43 =

32 – 16 =

77 - 39 =

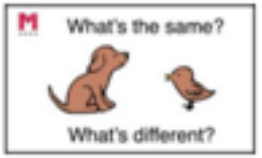
63 – 25 =

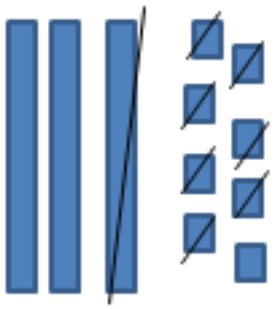
Deepening

45 - 24 > 20

Is this true or false?
Solve the equation to prove your answer.

What equation is this showing?





39 - 17 38 - 17 17 - 38 37 - 19

Joe's teacher has 31 glue sticks. His class use up 14 of them. How many do they have left?

3 more go missing, how many do they have now?

Draw the dienes to show your working out.

I start with a number. I subtract 36. My answer is 27. What number did I start with?
