Key learning: To use effective story language.   5.2.2021

Success Criteria:

- I can explore and identify effective language in story books.
- I can write an introduction to an Under the Sea story using effective story language.

Deepening: I can share my work with a partner and make improvements.

What do you think a good adventure story needs?

Write an introduction to your own Under the Sea adventure story. Try to include:

- interesting story openers
- repeating phrases
- time openers
- adjectives / descriptive story language

Make sure you include YOUR characters that you planned earlier in the week. Think carefully about where in the oceans they would live (e.g. – coral reef, deep sea, polar regions) from our science and geography lessons!
